

## ***Installation Instructions for 70258 & 70259 Seat Pad***

- 555-70258 is a rectangular piece of foam for use on race seats – dimensions 17” x 34”. Cut the foam to fit your application.
- 555-70259 includes two pre-cut foam pieces for use with most poly seats. Minor trimming and fitting is required since each seat is different. Cut out holes for seat belts that pass through the foam.

The foam has peel & stick adhesive on one side to attach the foam to the seat. You can also add spray glue to two sided tape (not included) – if needed.
