Product Information

The NEW V2 DRIVE Series is the latest LED headlight and foglight kit in the industry for ATV's, Motorcycles, Race bikes, Off-Road vehicles, and Automotive. All the solutions for LED's have been built into this technology. The LED kit does not contain a driver, but does come with an optional Canbus Decoder pack to plug n play between the LED bulbs and the vehicle to steady voltage, and interface with CANBUS functional vehicles. The size of the bulb bases are specifically designed to eliminate fitment issues from oversized aftermarket bulbs. The light output and performance is amazing at 2,500 LUX, and great for night time safety driving. General Specs: -Rated LUX output - 2,500 LUX/bulb or 5,000 LUX/kit -RAW LUX light output is 2,980lx/bulb or 5,960lx/kit -RAW Lumen Measured on Meter is 2,480lm/bulb or 4,960lm/kit Warranty - 3yr Warranty Canbus - Canbus Decoders included in kits -Plug N Play OEM sized (no fitment issues) -Temperature: -45±85 °C - Voltage: DC9V-32V -Beam Angle:330° -6,
