## **Jet Performance Products Limited Warranty**

JET Performance Products warrants Chips, Modules and Programmers to be free from defects in material and workmanship under normal use and if properly installed. This limited 2 year waranty is to the original purchaser. If found to be defective as mentioned above, it will be replaced or repaired at the sole discrection of JET if returned prepaid along with proof of purchase.

All other products and services performed by JET are warranted to be free of defects in material and workmanship for a period of six (6) months from date of purchase.

Repair, replacement or credit will be based on the date of purchase and will be at the sole discretion of JET. Cost for labor are specifically excluded and are the sole responsibility of the purchaser.

This warranty DOES NOT apply to Custom programming or any product incorrectly installed, modified by the purchaser, or to any product that has been damaged, subjected to misuse, negligence or accident.

To obtain warranty service or a Return Authorization number, contact our Customer service department at (714) 848-5515 between 8am and 5pm Pacific Standard time, Monday through Friday.

Defective products may be be brought or sent prepaid (with a Return Authorization number) to: JET Performance Products 17491 Apex Circle Huntington Beach, Ca. 92647.

### **Performance Chip Installation for GM Applications**

- 1. Disconnect the negative battery cable.
- 2. Locate the ECM using the Vehicle chart and the ECM location chart.
- 3. Unplug the wiring harness to the ECM and remove the ECM from the vehicle.
- 4. Remove the metal cover on the top of the ECM with a nut driver, socket or screwdriver. These are normally 1/4 inch, 7 mm or Torx head screws.
- 5. Remove the stock chip from the ECM by pulling up on the ends of the stock chip . (See photo 1)
- 6. Install the JET Performance Chip back into the socket in the ECM that the stock chip was removed from and press down carefully to seat it. (See photo 2)
