

INSTALLATION INSTRUCTIONS

Part Number SU-2504

This filter fits: Suzuki LTZ 250 QuadSport, Suzuki LT250F Ozark

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine with no modifications required. However if any engine modifications have been made, tuning/jetting adjustments may be required.

However there are special installation instructions, so please follow the procedures outlined below to ensure that the K&N *Filtercharger*® seals properly.

- 1) Remove stock filter according to the owner's manual.
- 2) Clean the sealing surface of the airbox
- 3) Install the K&N air filter, making sure that the bracket is in the correct position.
(Welded end of bracket is down) (see fig. 1)
NOTE: you will need to push the K&N air filter against the sealing surface of the airbox to ensure correct fit. (see fig. 2)
- 4) Install the provided washer onto the screw and tighten down according to owners manual. (see fig. 3)
- 5) Replace airbox lid.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
