

Mustang Transmission Harness Installation Instructions

*product may vary from photo.

These Instructions Cover the Following Part Numbers:

FH-060	1987-1993 Ford Mustang Replacement Transmission Harness – Auto
FH-061	1987-1993 Ford Mustang Replacement Transmission Harness – Manual

Installation Instructions:

- 1) Disconnect battery
- 2) Raise vehicle and secure appropriately.
- 3) To perform this installation it will be necessary to remove the driver's side seat, carpet and kick panel cover.
- 4) Begin removing the existing transmission harness by disconnecting the harness from the main harness at the kick panel area and at the transmission. Note how harness is routed. Carefully pull grommet loose at the transmission tunnel and remove harness.
- 5) Install replacement harness following factory routing.
- 6) Complete installation by confirming harness is routed away from exhaust and any moving parts.
