

STOP READ THIS WARNING!

Make sure you test fit these exhaust components BEFORE any cutting, welding or unnecessary bending is done. Once modified, the components of the system are NOT RETURNABLE.

If you are unsure of the proper installation procedures or fitment, please contact a qualified exhaust shop or call our tech lines toll free at 800-421-3890 or visit our installation gallery at: www.pypesexhaust.com/install

One of our experienced exhaust techs will be glad to assist you in any way. Thanks and enjoy you new...

- If you receive this kit as a component in a street legal Mustang X-pipe or H-pipe, please follow the instructions included with the kit. The following numbers will be included: XFM26, XFM30, XFM33, XFM36, XFM39, HFM26, & HFM36.
- If purchased as a universal kit, these are designed to slide over 2-1/2" pipe towards the engine and have expanded 2-1/2" pipe slide over the rear neck of the converter.
- The O2 bungs may also be used as accessories such as air/fuel gauges or a pyrometer. If not used, make sure the bungs are sealed tight.
- Welding and cutting of your existing exhaust system may be required for installation.
- Do not try to expand any portion of these cats as the material may split.
